Experience

Lead Technical Specialist
ROSHKA S.A.

Jul 2023 - Present (8 months)

My focus is centered on leading the development of an innovative Home Banking system using React, working in collaboration with a team of developers and reviewing technical aspects of the project.

Training Specialist
ROSHKA S.A.

Mar 2022 - Present (1 year 7 months)

I prepare and teach courses in multiple technologies (backend and frontend) using Spring framework, for people with little or no
experience in the field and help to select the best students to work in the company. I also help junior developers
with their initial tasks to integrate more easily into work teams.

Software Developer
ROSHKA S.A.

Feb 2023 - Jul 2023 (6 months)

Development of an application for testing bank operations of SPI 2 between banking entities using Django, and the development of a documentation tool for projects.

Software Developer
Freelance (Self employed)

Aug 2022 - Feb 2023 (7 months)

Software Developer
Softec S.R.L.

Dec 2020 - Mar 2022 (1 year 4 months)

I was in charge of developing REST APIs in Python (generally with Django), which are then connected with
webs (HTML, CSS and Js), with mobile applications or with both. I was also in charge of the design of database
structure according client's requirements.

Developer

Feb 2020 - Aug 2020 (7 months)

I was in charge of continuing the development of a livestock management system, where I had to test, correct, design and implement new modules. It was a web system written in C# and Javascript

Software Programmer
Alpha Software
Jul 2019 - Mar 2020 (9 months)
Design and implementation of modules for ERP system written in VB.NET and used the SQL Server database.
Some features are: invoicing, accounting and generate reports.
